FROM: John Shauver, Environmental Enforcement Division *JS*

SUBJECT: BASF North & South Works meeting

I have scheduled, due to popular demand, a meeting to discuss the data you've received from the samples BASF and DNR took from monitoring wells on the North & South Works.

I would also like to discuss clean-up alternatives for both sites that would be acceptable to the state.

The meeting has been scheduled for 1:30 p.m. February 14, 1985 in the 6th floor conference room, Mason Bldg., Lansing.

I realize there may be some problem with all of you getting to the meeting. Please send an alternate representative if you cannot attend.

I'll forward the rest of BASF's data as I receive it. Please call me if you do not have any of the three items I've sent: large mass of DNR data; data from BASF South Works; summary table of DNR data for both North & South Works.
